Keeping MDS Coordinators up to speed to prepare for case mix is an on-going quest. This New York Medicaid nursing facility Case Mix Seminar discusses the necessary documentation required to support the assigned Medicaid RUG to ensure accurate reimbursement for care provided. New York OMIG Auditors are focused on "high risk" Medicaid Case Mix MDSs for Nursing Facilities with a change in CMI by more than five percent for 2012. Learn strategies for accurate coding and medical record preparation.

RECOMMENDED AUDIENCE

Administrators, Nursing Management, MDS Coordinators, Nursing Staff, Therapy Management, Occupational Therapists, Physical Therapists, Speech Pathologists and Social Workers.

OBJECTIVES

I. The learner will be able to identify the specific components of NY RUG-III 53 categories.
II. The learner will be able to identify high risk NY RUG-III 53 categories.
III. The learner will be able to identify documentation requirements to support the RUG components.
IV. The learner will be able to identify strategies for organization of the Medical Record in preparation for OMIG Audits.

GOALS

This program will enable healthcare providers to ensure accurate reimbursement for Medicaid residents through an understanding of the NY Medicaid Reimbursement System in a nursing facility.

CONTENT

- Review of RUG-III 53 Leveling (10:00 – 10:15)
- Case Mix Indexing (10:15 – 10:30)
- High Risk RUG (10:15-10:30)
- Nursing RUG Qualifiers (10:30-11:00)
- Therapy RUG Qualifiers (10:30 – 11:00)
- Extensive Category Review (10:45 – 11:00)
- ADL Coding (11:00-11:20)
- Documentation requirements to support Nursing RUG-III 53 qualifiers (11:10-11:30)
- Documentation requirements to support Rehab RUG-III 53 qualifiers (11:10-11:30)
- Strategies for Medical Records organization to prepare for Audit (10:00-11:30)
- Question and Answer Session (11:30 – 12:00)
