## Facility-Group Cost Comparison Report Using 2007 Cost Data

NYSHFA prepares the *Facility-Group Cost Comparison* report especially for your facility, using your facility as the focus facility and the peer group of your choice for the comparison group.

Reports include six separate modules, outlined below. In addition, the initial average 2007 case mix index (CMI) for the group is compared to the facility's CMI. Our Committee and staff highly recommend this report to all members who wish to find ways to manage costs.

Select from a listing of facilities for your comparison group, or select by peer criteria (geographic, bed size, sponsorship). For more detailed information about these reports, please contact [Ellen Bagley](#) at NYSHFA (518) 462-4800 x.16.

- Total Costs
- Departmental Costs
- Salaries
- Functional Expenses
- Staffing
- Statistical Information
- Census Information

MEMBER PRICE: \$250

*Respected leader in long term care.*
